Assault Pursuit 8

The Pursuit 8 is a high-volume RIB that can capably carry 10 passengers without sacrificing agility or performance. Ideal for recreational day trips or commercial operations, the Pursuit 8 is available in standard configuration, which can be trailered, or with the amphibious Anura system.

The retractable three-wheel design allows the Pursuit 8 to be land-driven at approx 7km/h before being easily transformed into a full-featured RIB with the exceptional sea-keeping ability that you have come to expect from Assault.

Specifications

8.40m Approx LOA
