

OCEANPRO

620 HT

Images may show optional upgrades.

Oceanpro 620 HT

The ultimate hard top fishing machine built for NZ conditions. The 620 is the first of Oceanpro's lineup to feature their new tapered pontoon design, which gets the pontoons higher above the waterline at the bow and results in a larger hull plate to cut through the water. The 620 has ample dry storage for your gear, a large deck area to provide fishing space for four adults and a fold down bench seat for the kids.
